

Hidden Hearts

Find 10 hearts. Then color the picture.

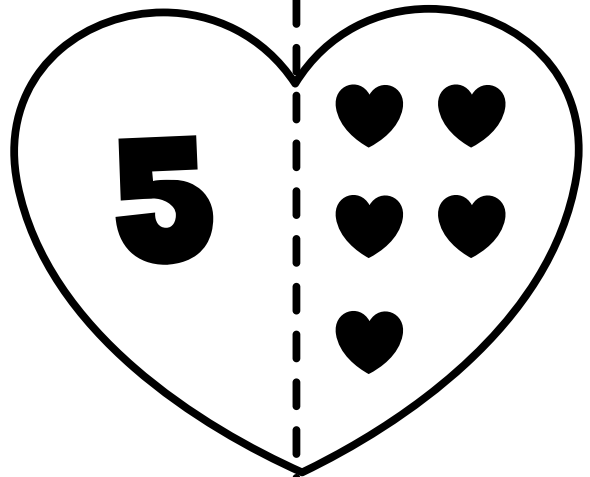

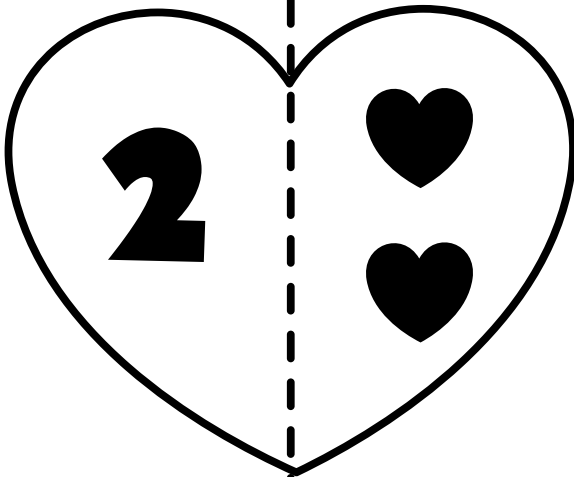

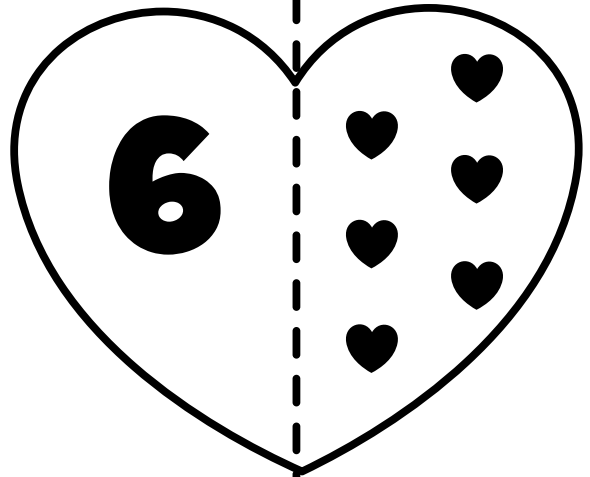

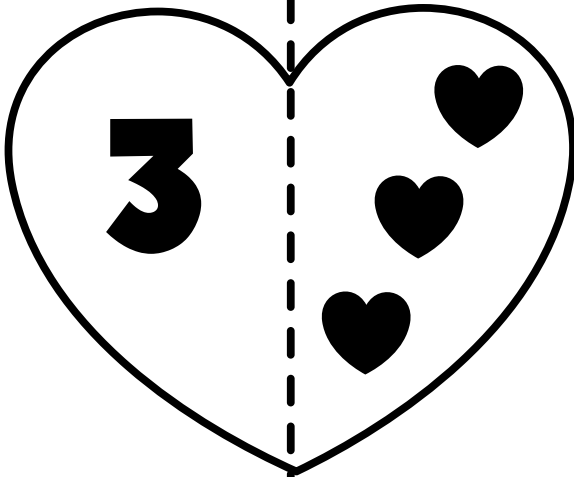

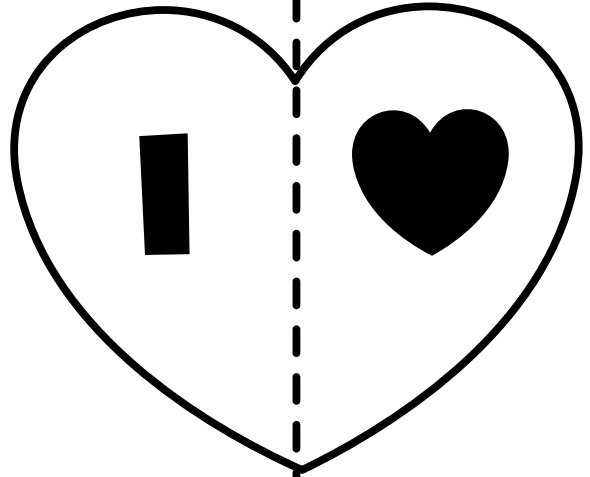

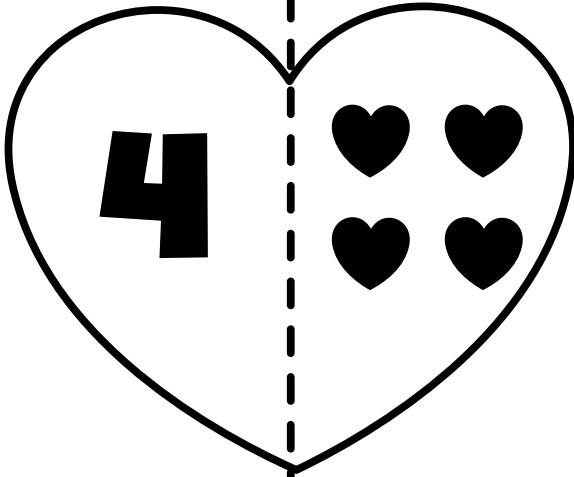

number recognition

Heart Halves

Teacher: Here are two easy ways to use this math matching game:

1. Cut out the heart halves. Mix them up. Put them in a math center for children to match.

2. Play a group game. Make enough copies of this sheet so each child will get half a heart. Cut out the halves and distribute them to students. Let students find their match.

dental health

What Keeps Your Teeth Healthy?

Cut out the pictures at the bottom. Which things help keep your teeth healthy?

Glue them to the tooth.

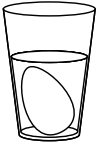

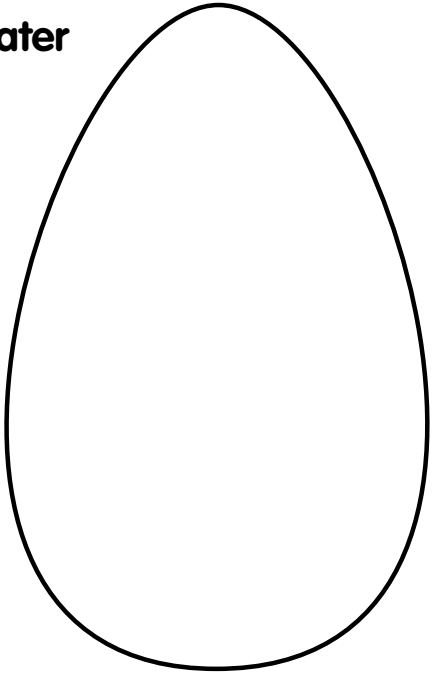

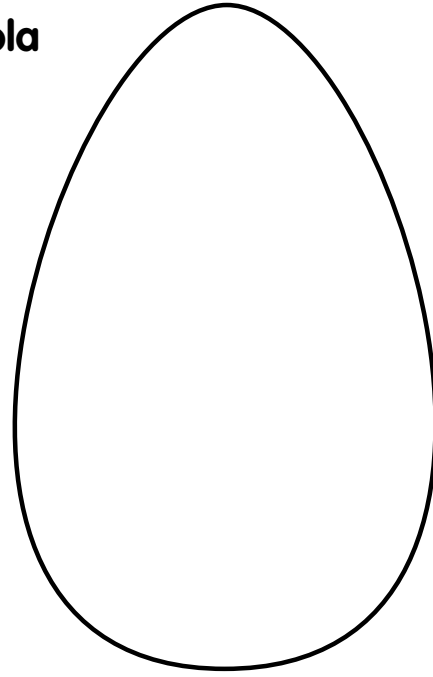

My name _____

Hands-on Experiment: Egg in Cola

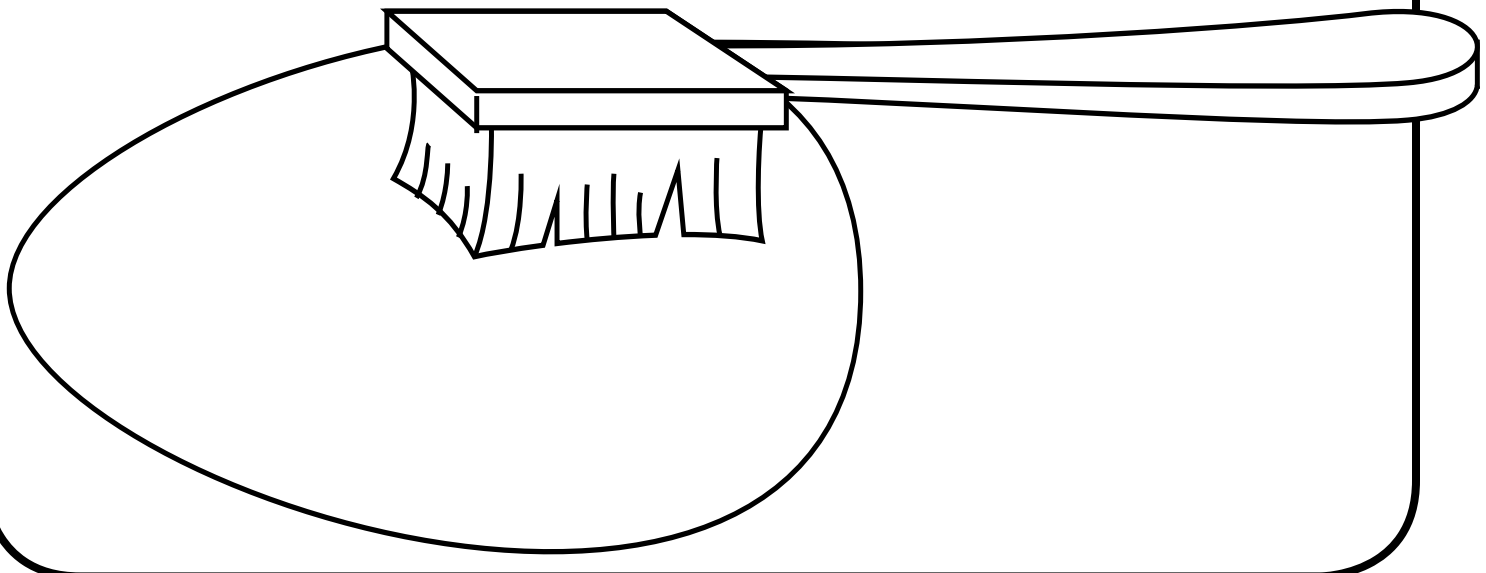

Question: Eggshells are hard, like our teeth.

What will happen to an eggshell in water? What will happen to an eggshell in cola?

Color the eggs to show your observations:

<p>egg in water</p>  	<p>egg in cola</p>  
---	---

We brushed the eggshell that was in cola. This is what it looked like:

This Is How I Brush

Cut out the cards. Then mix them up and put them in the correct order.

Brush your teeth.

Wet the brush.

Spit and smile!

Put on toothpaste.
